Issue of Deviation in DVV recommended input in metric 3.2.2

3.2.2. Number of workshops/seminars/conferences including on Research Methodology, Intellectual Property Rights (IPR) and entrepreneurship conducted during the last five years

The HEI has observed deviations in the HEI input and the recommended input by the assessing authority. This is in response to the deviations observed by the HEI. It is the earnest request of HEI to the assessing authority to reconsider evaluation of the recommended input in light of clarification prepared by the HEI of the anticipated discrepancies.

As per the “Standard Operating Procedure (SOP) for Data Validation and Verification of Affiliated Colleges Manual” for Metric 3.2.2 on page 11, it is clearly stated that **all activities**, including those related to Research Methodology, IPR, and entrepreneurship, should be considered within this metric. Based on this guidance, the HEI included a broader range of events that align with the given criteria. Therefore, the HEI request the assessing authority to accept all the events as a part of the metric category. In the updated data template, we have removed talks, orientations, and celebration days as per the recommended clarification. Additionally, we have provided updated reports and necessary documentation in the links below to substantiate our input.

https://www.sbdeorahcollege.org.in/upload/dvv_criteria/1726225302.pdf

We kindly request you to review our clarification and reassess the DVV recommended input for metric 3.2.2 considering the above justifications.
